

135 The limited senior level oversight within INAC (Indigenous and Northern Affairs Canada) on consultation and accommodation and the lack of authority of INAC (Indigenous and Northern Affairs Canada)'s Consultation and Accommodation Unit to ensure that all sectors of INAC (Indigenous and Northern Affairs Canada) fully implement the duty to consult was noted in a November 2014 *Audit of Consultation and Accommodation* of the Audit Assurance Services Branch of INAC (Indigenous and Northern Affairs Canada). 136 There would be issues with assigning this authority to MPMO (Major Projects Management Office) given its existing mandate which is limited to major projects. Many consultation issues fall outside of the major projects context and this is where greater oversight is most needed.
