-  NORTHWEST TERRITORIES
-  YUKON

### ***MAP 4: CANADA IN 1912***

In 1912, Manitoba's northern boundaries were extended to 60°N and the coastline of Hudson Bay. In the same year, Ontario and Quebec were also extended northwards, to the coasts of Hudson Bay, James Bay, Hudson Strait and Ungava Bay. The boundaries of the NWT were thus established for the next 87 years.
